Ministry Description

World Gospel Mission began working in Kenya in 1932. The first missionaries were involved in church planting, nursing in dispensaries, starting and overseeing schools, and ministering to unwed mothers and their babies. Africa Gospel Church is the outgrowth of their early work. Now, AGC has more than 1,700 congregations throughout Kenya with an average weekly attendance of 300,000. The church encourages its members to pattern their lives after the life of Jesus and to experience and express God's holiness in their daily lives, putting faith into action and addressing social ills with the positive message of faith in Christ.
