

Missionary Kid Teachers

Opportunities

World Gospel Mission is seeking individuals to serve as teachers of missionary children living at Tenwek Hospital. Located four hours from Nairobi in rural western Kenya, Tenwek is home to 8 to 10 homeschooling missionary families at any time. The Tenwek Hospital community is known to be a caring and helpful family whose members live and work together. There are multiple opportunities to be involved in the surrounding Kenyan community as well. Missionary teachers will live on the Tenwek Hospital compound along with all the other WGM missionaries serving at Tenwek, and they will be members of the WGM Kenya field.

In 2017 and 2018 there will be up to five families with *both* parents serving as physicians. Having professional teachers at Tenwek will be a huge answer to prayer for the missionary families as it will allow doctor-moms and doctor-dads to be more involved in medical ministries.

Location

Bomet, Kenya

Length of Service

- **Short-term: one year**
- **Long-term: two or more years**

Ministry Description

Tenwek is seeking teachers who are licensed and degreed in elementary or middle school education. Teaching experience is preferred but not required. Our educational tradition has been to co-op our homeschooling efforts, and a classroom/resource library has been set up from which the teachers can center the "school." The teachers' responsibilities will include providing instruction in various disciplines for a sub-group of students ranging from preschool through eighth grade, helping to offer a well-rounded education and school experience for these children in conjunction with missionary parents, and supervising annual testing.

Causes

- Education
- Children and Youth

Quick Facts

- Tenwek Hospital began as a small clinic in the 1930s and is now one of the largest Protestant mission hospitals in Kenya. It is located 140 miles west of Nairobi in the fertile highlands of the Bomet district.
- Guided by the motto, "We treat, Jesus heals," Tenwek serves as a beacon of both physical and spiritual hope to the region. Tenwek also serves as an important training center for Kenyan physicians, nurses, and chaplains with the vision of equipping and empowering Kenyan colleagues to reach their continent for Christ.
- In addition to the medical work being done at Tenwek, several thousand people find Christ as Savior each year, and many more are impacted through the hospital's compassionate ministries and training programs.
- One of the biggest practical challenges for many missionaries living at Tenwek has been educating their children. The closest international school is three hours away at Rift Valley Academy, where many families opt to send their high schoolers.
