

## David and Debbie Hawk

ID: 04265 Country: [Honduras](#) Region: Central America

### Biography

Since 1991, we have served in various roles on three different WGM fields—Texas/Mexico Border Ministries, Honduras, and El Salvador. Currently, we serve as field leaders for WGM Honduras.

I (David) grew up on the mission field in Honduras and was saved and sanctified in high school. Debbie also grew up as a missionary kid in Burundi, Africa, and was saved during junior high and sanctified in high school. Having grown up in Christian homes, we desire to see others come to know the Lord.

As field leaders of WGM [Honduras](#), our total effort is focused on transformation. Honduras is one of the most violent nations in the world. In the next five years, all our efforts will be directed toward partnering with local churches in ministries that maximize the teaching of a biblical worldview, understanding that God made us in His image and with a purpose.

Our goal is to help the churches understand how they can have effective programs that include ministry with children and families in order to transform first the families, then the churches, then the communities, and then the nation. We believe that we cannot accomplish transformation in the world until first the church and then families and communities understand God's intention. We are passionate about promoting a biblical worldview to anyone who will listen.
