Biography

We are preparing to serve on the island of Roatán, [Honduras](#), with our sons Micah and Isaiah. Punta Gorda, the community where we will serve on the island, is affected by broken families, promiscuity, drugs, and a lack of God's direction. Approximately one in four people in the community have contracted HIV/AIDS.

The community was formed when approximately 2,000 African slaves were left on Roatán by the British. They settled on the island, and the Garifuna people are there to this day with their own language and culture.

We plan to train churches and community leaders to reach children and teach them about God's love for them in a way they will understand. We are also raising support to renovate a building into a community center, which will serve as a safe place for kids to hang out and as an outreach opportunity. Through the center, we plan to offer discipleship, computer, and English classes and mentoring and homework help as we create a refuge and alternative to the streets.
