Biography

We both were impacted as young people by adults who took the time to introduce us to Jesus and to love us by being His hands and feet. We are passionate about building authentic relationships with the students at Heritage International School and loving them like Jesus. We are building these relationships by serving as chaplains, leading youth ministry with middle and high school students, and providing pastoral support to students, staff, and parents.

We desire to reach out to the parents, too, who are busy in ministry or other jobs around the capital city of Kampala, [Uganda](#). If we can build genuine relationships with the students and then with the parents, we can help parents know what is really going on in the hearts of their children and how to continue loving their kids the best way possible.

We also desire to turn [Heritage](#) into a launch pad for missions. There is a high turnover of students and staff due to the nature of the school. If we can take advantage of the time we have with each family and instill in them a passion to spread the kingdom of God wherever they find themselves each day, then we are multiplying our impact and seeing God's kingdom grow at a great rate. In order to do that, we plan to shepherd the entire Heritage community—from student to parent to teacher.
