Biography

By the age of 12, I knew God was calling me to serve Him and share that joy with others. He continues to work in my life as I surrender my all to Him daily, no matter the circumstances. Looking back over the years, I am excited to see how He continues to touch my life and give me opportunities to join others who believe in touching lives for Jesus now and for eternity.

My years of service with WGM have passed by quickly! My first assignment was to Burundi, where I served as a nurse and midwife in a small clinic before I transferred to Kenya at the end of my first term. For my second term, I returned to work at [Tenwek Hospital](#) and assisted in opening our nursing school, at which I have enjoyed teaching for more than 20 years. One of my greatest joys is seeing nursing students and graduates put into practice principles of excellence and compassion as they touch lives professionally and spiritually while they “Care in Christ’s Name.”

It has been a joy to see a dream come true as Kenyans, including some of our own graduates, are now taking on leadership roles as nursing school staff after completing further training. This multiplication principle makes it possible to touch more lives as we work side by side to train nurses. I also praise God for the many people who are a vital part of our nursing school team as they faithfully pray and share financially so we can serve here.
