Biography

As I reflect on my life, I can see how the Lord led me to my life and ministries on the [American Indian Field](#). It is thrilling to see how He guided me through His Word. On my part, it took a willing spirit and steps of faith. God's calling was sure, and He is faithful in His continual confirmation. He gave me His love for Native Americans and patience in relationships.

He also placed a small reservation church in my life, resulting in a strong relationship with the pastor and his wife. Many of the lives He has given me are like family to me. How gracious God is to give me an opportunity to teach at a local Christian university since 2010. He is blessing my relationships with the students and the faculty. My heart is attached to the people and the place I serve.
